

Practice Nurse Vacancy

Wellington is a progressive and innovative practice with over 14,500 patients in Telford and Wrekin CCG, recently rated good by CQC.

At Wellington Medical Practice we recognise the changing and evolving health care climate and the value that Allied Health Professionals and the Treatment Room Team can add to patients care, improving the patient journey and ultimately outcomes.

Currently we are keen to further recruit to our expanding team of highly skilled Nurses that form our Treatment Room Team.

We have 5 GP partners, 2 Advanced Nurse Practitioners, Consultant Physio/MSK lead and Prescribing Pharmacist working with a team of 4 Nurse Practitioners/ Practice Nurses and 2 HCAs and the enthusiastic reception/admin team to deliver innovative and quality patient care.

As one of our Practice Nurses you'll have recent experience within a Primary Care setting and clinical expertise, be adaptable, highly motivated and relish a challenge.

You will be registered with the NMC, ideally with a recognised Practice Nurse qualification and able to deliver travel and child immunisations and manage chronic health conditions.

We can offer a supportive and evolving environment for you to develop your clinical expertise and a competitive salary.

Please contact Patsy Clifton (Nurse Manager/ANP) patricia.clifton@nhs.net for further information and to apply.
