## MINOR CHANGES SEEN ON X RAY/IMAGING

Thank you for having your recent tests (this could include X-ray or a scan). The results have come back and the surgery would like to inform you that they have shown mild 'wear and tear' changes.

This is nothing to be worried about as this is a normal change that our bodies go through as we get older.

If you are experiencing significant problems with moving the joint please can you call the surgery **after 11AM** to book an appointment with our Physiotherapist.

We have a physiotherapy assessment service that runs three days a week and you will be pre-booked into the most appropriate slot time

Yours sincerely

Wellington Medical Practice
