WELLINGTON

Medical Practice

[www.wellingtonmedicalpractice.co.uk](http://www.wellingtonmedicalpractice.co.uk)

## Covid 19

*The team at WMP would like to thank you all for your support and messages of support throughout the pandemic.*

## Supporting Care Homes During Covid 19

*We have been carrying out daily and weekly checks with our local care homes via video and telephone consultations to keep care home staff and residents safe. During the lockdown crisis we have carried out over 700 calls and video consultations to our local care homes.*

## Helping Patients with Remote Consultations

*We are now mainly offering telephone and video consultations as required, this allows patients to access medical care without having to travel to the practice.*

*This helps keep all our patients safe and allows us to maintain social distancing for those vulnerable patients that do have to attend the practice .*

## Food Bank

*Throughout the pandemic the staff at the practice have raised weekly food collections to support our local food bank.*

*Please Stay safe.*
